

STATISTICAL CONSULTING GROUP

Data Analysis & Modeling

Department of Mathematics
Rowan University

go.rowan.edu/scg

SCG is a core group of statisticians and mathematicians with expertise in a wide range of fields. We help businesses grow by mining their data, and consult on all types of projects, ranging from grant proposal preparation to complete data analysis.

Biostatistics

Data Mining

Machine Learning

Professional support for:

- Survey and experimental design.
- Data analysis, estimation, forecasting.
- Predictive modeling and classification.
- Grant proposal preparation.

Past Projects:

- *Biomarker discovery for neurodegenerative diseases* (NJ Institute for Successful Aging and Department of Cell Biology, Rowan SOM).
- *Pharmaceutical data, peak detection and deconvolution produced by mass spectrometer* (Bristol-Myers Squibb)
- *Analysis of gas turbine online wash data* (Q.E.D. Systems)
